If your customers cannot find you online ..... they will find your competition!

Can you really afford to lose potential customers that way?

## IF A CONCERN?

- How do I make sure my company is visible on Google?
- I have very good content but I still don't rank on Google's first Page?
- How do I ensure I get valuable links to my website?
- Why is Social Media marketing critical for my website ranking today?
- What does Social Media marketing need to include at the very least?

## SEO & SMO ...will solve it

- Choosing the correct keyword phrases result in highly focused & targeted search results by Google - **Make sure to choose the keywords carefully.**
- Google prioritizes its search rankings in (2) ways On-page & Off-page search engine optimization - **Apply them both.**
- A good link building strategy includes - blog posts, article marketing, & reciprocal links - **Use them.**
- By spreading your content over social media channels, your website will gain many prime positions by Google - **Get involved in these conversation channels today.**
- Social media advertising, social media bookmarking, social media networking, & social media optimization - **Include them all in your online reach.**
